Travels Site

Feature #1 – Locations ('Add'/'Edit' Part)

Functional Technical Specification Design

1 Introduction

1.1 Story

There should be a possibility to **add** a new location in the Locations screen.

There also should be a possibility to **edit** an existing location.

Relevant for Admin and Supplier.

2 Solution Description

2.1 Functional

The Locations page (Administrator/Supplier mode) will show Add button above the Locations table:
	#	City	Country	Latitude	Longitude	Status		
☐	1	Dubai	United Arab Emirates	25.2048493	55.2707828	✔	✎	✖
☐	2	Kostroma	Russia	57.75	40.933334	✔	✎	✖

Locations   **+ADD**

PRINT   EXPORT INTO CSV   ✖ DELETE SELECTED

And Edit button as a row action:

	#	City	Country	Latitude	Longitude	Status		
☐	1	dfsadf	Afghanistan	90	70	✔	✎	✖

Both – add and edit actions will show the "Location" page:

Add Location

Country	Select ▾	Location / City	Location	Long	Longitude	Late	Latitude	Status	Enabled

Translation

🇸🇦 Arabic	Name		🇩🇪 German	Name
🇪🇸 Spanish	Name		🇮🇷 Farsi	Name
🇫🇷 French	Name		🇷🇺 Russian	Name
🇹🇷 Turkish	Name		🇻🇳 Vietnamese	Name

SUBMIT

3

Edit Location

Country: United Arab Emirates | Location / City: Dubai | Long: 55.2707828 | Late: 25.2048493 | Status: Enabled

Translation

Arabic	Name	German	Name
Spanish	Name	Farsi	Name
French	Name	Russian	Name
Turkish	Name	Vietnamese	Name

SUBMIT

Input element	Description	UI
Country dropdown	Determined list of countries	American Samoa
Location/City textbox	Open text. Connected to Google Maps if desired. Word "Location" is displayed in background if empty.	Location
Long textbox	Open text. Word "Longitude" is displayed in background if empty.	Longitude
Late textbox	Open text. Word "Latitude" is displayed in background if empty.	Latitude
Status dropdown	Has only two values: Enabled and Disabled.	Disabled
Translation section	Textbox for each language. Word "Name" is displayed if empty.	Name

Country dropdown and 3 location textboxes are mandatory to fill. If empty upon saving the error message should appear:

Please select an item in the list.

Submit button placed on the bottom of the page:

🇩🇪 German	Name

SUBMIT

It triggers verification of the fields and saves the data.
